
St. Michael's Parish Council Minutes

December 13, 2007

New School

Parish organizations will have the opportunity to look at Kevin Clark's schematics and elevations in greater detail in 4-6 weeks. This will give the parish some feedback and direction for the plans.

At this time we are looking at having Mass in the commons area of a new building. The parish is looking ahead at the logistics of preparing for Mass. For example, tables being moved, utilizing tables with seats for Mass, daily Mass vs. Sunday Mass, are just some of the things to be considered.

Parish Census

Currently there are 420 families in the parish.

Father Borowiak needs to hire a part-time position requiring about 12-14 hours a week. Duties would include maintaining a parish database, preparing the Sunday bulletin, filing, and maintaining the parish website.

\$25,000 will be deposited in the Diocesan Investment & Loan account. It was also recommended by the council to lower the balance in the church checking account into Union Bank Sweep Account to earn more interest. Unknown at this time is the rate that the interest accrues, i.e. does it accrue daily, monthly, or quarterly? The rate that it accrues would determine if it makes sense to move money back and forth on a regular basis from checking to a Sweep Account.

The parish has reached the second \$10,000 for the matching school endowment fund gift.

Father Borowiak would like to establish perpetual adoration and would like to find a person to handle scheduling.

The parish contributed \$3000 to Virtue Media in a recent collection.
